

Section Note Taking Transparency 201  
**The Developing World Section 1**

## Development

### Economic Change

- Railroads, highways, and dams are built.
- New schools are built.
- Command economies are introduced.
- Loans are received from global North.
- Lenders require market economies.
- The Green Revolution increases agricultural production.

### Obstacles

- Rapid population growth burdens governments.
- Traditions and religious beliefs encourage large families.
- Many people are caught in cycle of poverty.
- Families depend on child labor.
- Economies tend to rely on one crop or one export product.
- Development depends on industrialized nations.

### Changes in Patterns of Life

- New opportunities for women emerge.
- Religious fundamentalists urge a return to traditional ways.
- Cities grow rapidly.
